## Waar ga je werken?

VDMJ machinery

3840 Borgloon

VDMJ is a Belgian manufacturer of machines for the agricultural and earthmoving sectors. Both R&D and full production from A to Z are carried out in their own factory in Borgloon, Belgium. During production, only the very best European components are used, as a result of which VDMJ has been enjoying a particularly good reputation in more than 15 different countries for over 20 years.

## Wat ga je doen?

- lassen, monteren, algemeen metaalbewerker (zagen, boren, draaien, frezen, plooiën), lakken.

## Interesse?
